

**Yuba IRWMP-MARY-14**  
**Project Solicitation Form 2019<sup>1</sup>**

Please fill out the following information to the best of your ability/knowledge. Once the project has been received and a preliminary review completed, the project team will work with you to develop additional information.

**Project Sponsor Contact Information**

Lead Agency/Organization	City of Marysville
Name of Primary Contact(s)	Marti Brown
Mailing Address	526 "C" Street, Marysville CA 95901
Email Address	mbrown@marysville.ca.us
Phone (###) ###-####	(530)749-3901
Project Partners/Collaborators	N/A

**General Project Information**

Project Title	Marysville Park Irrigation Well Initiative
Project Total Budget, based on current knowledge	\$200,000/well (4 wells included in the Project); \$800,000
Project Funding Match, if any	None
Total Project Funding Request	\$200,000/well (4 wells included in the Project); \$800,000
Can a detailed cost estimate be provided upon request?	Yes, from prepared Engineering Design Docs created under Prop 81
Project Location (map if available)	No
City/Community	Marysville
Watershed/subwatershed	Yuba/Feather (at the confluence)
Groundwater Basin	North Yuba Subbasin
Project Type (highlight in gray all that apply)	Conceptual Feasibility Study Study/Assessment Planning Engineering/Design Permitting CEQA/NEPA <b>Facility Construction</b> Restoration Monitoring Best Management Practices Acquisition Demonstration/Pilot Project

<sup>1</sup> Completed Project Solicitation Forms should be sent via email to Katie Burdick at [admin@burdico.net](mailto:admin@burdico.net)

## Project Description

Write a narrative briefly describing the project components and/or characteristics (maximum of 300 words).

The City was awarded a Prop 81 grant that will pay for the engineering and development of design plans and the implementation of two wells that will provide City park irrigation. This design and engineering is now 50% complete and will provide the required engineering and plans for the construction of additional wells as funding is made available. There remains other high priority well sites that the City would like to implement as soon as the design documents are complete. Implementation will cost \$200,000/well.

These well projects are CEQA exempt and only require City permits. Of the 21 parks in the City, the four (4) high priority well sites are:

1. Gavin Park
2. Circle Park
3. Ellis Lake (B Street location)
4. Plaza Park

## I. Project Rationale/Issues Statement

Briefly describe the need for the project and the desired outcomes/deliverables (maximum of 200 words).

The irrigation wells initiative will help reduce the City's fiscal liability in providing irrigation for its public parks via a commercial water provider. These wells will provide lower cost irrigation water for City lands and parks, saving the City overall money needed for other programs. This initiative will also increase City staff's capacity for water management projects in the longer-term.
