PROJECT DESCRIPTION

Write a narrative briefly describing the project components and/or characteristics (Suggest ~ 300 words).

Through outreach and coordination, the project will identify Underrepresented Community needs and assist in water supply issues within Underrepresented Communities primarily for Marysville, Linda, and Olivehurst areas. This includes assisting the communities in identifying needs and identifying potential solutions. Those potential solutions would then be crafted into projects for future funding.

PROJECT RATIONALE/ISSUES STATEMENT

Briefly describe the need for the project and the desired outcomes/deliverables (Suggest ~ 200 words). Include an explanation of benefits and how they would be evaluated.

Project benefits are anticipated to include greater understanding of aquifer conditions, domestic well issues, water quality issues, and other issues experienced by Underrepresented Communities. The identified issues and identified potential solutions would lead to follow-on projects.
