¹ Completed Project Short Forms should be sent via email to Katie Burdick at admin@burdico.net **and** Elizabeth Herrera at Elizabeth.herrera@fishsciences.net

Project Description

Write a narrative briefly describing the project components and/or characteristics (maximum of 300 words).

The RD784 Master Drainage Plans for Basins A, B and C are approximately 10 years old and need to be updated on new information developed on climate change rainfall calculations. The unincorporated communities within the have grown with new development, pump stations have been upgraded and State and federal regulations have changed.

I. Project Rationale/Issues Statement

Briefly describe the need for the project and the desired outcomes/deliverables (maximum of 200 words).

The updated RD784 Master Drainage Plans for Basins A, B and C are needed to document the footprint of geographical within the District of areas potentially inundated by storm water and the water surface of the flooding. This updated information is needed by Yuba County government for development, building permit issuance and emergency operations activities.
