Project Description

Write a narrative briefly describing the project components and/or characteristics (maximum of 300 words).

The purpose of this project is to update the U.S. Corps of Engineers' (USACE) Flood Operations Manual so that it more accurately represents whatever changes are needed in operation. This manual will be used as the guideline for operating New Bullards Bar Reservoir.

I. Project Rationale/Issues Statement

Briefly describe the need for the project and the desired outcomes/deliverables (maximum of 200 words).

The project addresses the following identified regional issues:

Flood Management

- Improve integrated flood management to ensure better emergency preparedness
- Increase flood protection and enhance floodplain functions and habitat;

Create multi-stakeholder collaboration for flood management to achieve multiple economic, public safety, and ecological benefits.
